President's Corner

Welcome to the 2010 NACMPA Dinner Meeting. First I would like to express my sincere appreciation to the local organizers. This meeting is organized by the local organizing committee consisting of Dr. Wang Lu and her associates as well as our executive committee members.

As the current president, I would like to report to our members the progress NACMPA has made over the past year. NACMPA has officially acquired the status for non-profit organization and file our tax returns. Our bank account reserve has increased from the fund raising effort. NACMPA continues to sponsor meetings in Asian-Pacific countries and regions. This year, NACMPA will be also participating in the Great Wall international congress from August 18-22 in Nanjing, China. Besides the on-going meetings, we also have broadened our scopes to participate in many training and seminars in China and AP regions, with our members' efforts to devote their knowledge, time and specialties to improve the medical physics profession with our international colleagues. NACMPA has transformed itself into a new level, based on the milestones from all members' contribution. Now we are starting to focus on our members' interconnection, using modern web tools to facilitate the communication among our members. We hope to continue this great tradition in coming years and to make the NACMPA a great society to participate.

Welcome to our annual meeting!

Jack Yang, Ph.D.
President, NACMPA (2009-10)

Goals and objectives of NACMPA:

- To provide a forum for medical physicists with interest in scientific exchange with colleagues in the United States, China, Taiwan, Hong Kong and other Asian Oceanic Countries and regions
- To organize annual meetings during the AAPM Annual Meeting time
- To organize activities that promote scientific exchange of information in medical physics worldwide

Do you know?

- The Executive Committee of NACMPA consists of: President, President-Elect, Secretary and Treasurer.
- The duration of the Officer's terms are two years, beginning from January of the first year to December of the second year. The terms between the Secretary and Treasurer are staggered.

- (2010) Continue NACMPA recognition domestically and internationally

NACMPA Sponsored Program

China GW2010 Meeting (August 18-22, 2010)

Reported By: Jack Yang, PhD

The Great Wall 2010 International Congress on Medical Physics to be held in Nanjing, China on August 18-22, 2010. The congress is hosted by Chinese Society of Medical Physics (CSMP) and North American Chinese Medical Physicists Association (NACMPA), and organized by China Eastern Radiation Physics Committee (ERPC) and Jiangsu Cancer Hospital. This congress will be held in parallel with 15th National Annual Meeting of Medical Physics And with 3rd Meeting of China Eastern Radiation Physics Committee.

This congress is intended to facilitate scientific exchange, to promote medical physics research, application and education, and to provide a platform for medical physicists and scientists in related fields worldwide to foster communications, collaborations and friendship. The theme of the congress is “**Better Medical Physics, Better Human Health**”. The contents will cover all aspects of medical physics such as radiation therapy physics, medical imaging physics, health physics, blood rheology, laser, ultrasound, bioinformatics and medical physics education, etc. Major topics will include image-guided radiotherapy, bio-functional imaging, 3D and intensity-modulated radiotherapy, Monte Carlo methods, radiation safety and quality, image processing methods and radiobiological modeling.

Partners-In-Physics (PIP) Program

Reported By:

President-Elect Almon Shiu, PhD

NACMPA had been supporting the PIP program of the AAPM by sponsoring up to 15 medical physicists per year from developing countries in the Asian Pacific region. As a sponsor, NACMPA pays AAPM dues for the PIP. The medical physicist partner in the developing countries can access the AAPM website and its electronic resources including medical physics journal and TG-reports. Effective 2008, the PIP dues has been eliminated and the AAPM Board had decided to allocate 300 free PIPs for the developing countries. Interested medical physicists in developing countries can apply to become Corresponding Member or International Affiliate at the AAPM website (<http://www.aapm.org/>). To apply as a PIP, the applicant must check “yes” for the question “Financial Assistance Needed?” Application instructions are available at our NACMPA website (<http://www.nacmpa.org>). The PIP program is under the International Affairs Committee (IAC) of the AAPM chaired by Raymond Wu, PhD.
